ELLIOT

Elliot is marked by its four folding doors: a sliding rail, placed at the top, enables to push the doors to the sides of the piece. Each door features a 15 mm thick solid wood profile with a vertically built-in handle. The inside of the piece has two shelves, that can be removed according to need, and three drawers located in the lower part. The piece can be used for different purposes, even accommodating flat TV screens and other hi-fi equipment thanks to a cable duct on the back. The reduced depth of Elliot makes it suitable also for small rooms.
MADE IN ITALY.

EXCELSIOR

Excelsior is a storing unit with a vertical row of five drawers and a door with ten mock drawers, containing two shelves. The structure lies on a tubular metal base like the Riesling range. The use of precious materials makes this piece of furniture highly decorative. Inside, Excelsior is covered with glossy dark grey lacquer, while the bottom of the shelves and drawers are lined with bronze technical fabric.
