

The story behind every Armani/Casa piece is a story of Italian passion and craftsmanship.

Armani/Casa pure lines are enriched by the use of sophisticated materials, some of which are exclusively conceived by our creative team in collaboration with the most excellent craftsmen, experimenting new processing techniques and combinations. The research behind the finishes Armani/Casa develops every year is crucial to understand the exclusivity of our collections.

The Armani/Casa finishes include traditional woods (like oak, walnut, elm, rosewood, larch) as well as exotic ones (mahogany, ebony, tamo), fascinating stones, refined metals, colorful and textured lacquers, high quality leathers, technical fabrics, very precious creations combining wood and other unique materials.
