## HACK

Hack is inspired by the shape of the classical lanterns from the Far East and it is completely hand made following the ancient techniques of Murano glassmaking. The glass shade is produced by a traditional process in the furnace, where a series of coloured glass rods are fused on a mass that is superimposed on an internal layer of white opal glass in order to create a series of veins similar to those of marble. The gold colour, instead, is produced by covering white opal glass with gold leaf and afterwards with a layer of champagne tinted glass. After the tempering process the glass it is passed by a band to obtain the matt finish.

MADE IN ITALY.
