

JINGO

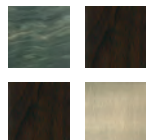

Jingo is a round dinner table featuring a thin 1,2 cm top enriched with decorative Satin Light Brass insets and frame. The four sections in which the metal insets divide the top into show an effect of different 45° orientation of the wood veneer. The legs feature Satin Light Brass feet and are characterized by a distinctive circular sector-shaped section. Jingo is available in two diameters, 120 and 160 cm. The most precious version, available in 120 cm diameter only, features a beautiful top in Green Mylonite Stone in a single slab without insets. MADE IN ITALY.
